I am an experienced Frontend Developer with a keen interest in creating engaging user interfaces. Skilled in HTML, CSS, JS, React and UI/UX, I possess a strong understanding of design principles and expertise in performance optimization. I am dedicated to addressing intricate UI challenges and developing pixel-perfect web applications. Excited about the opportunity to contribute my skills to innovative projects at your esteemed company.

Experience

Front-end Developer | LECLE VIETNAM JSC

Feb 2023 - Dec 2023

- Successfully completed essential training to align with company objectives.
- Contributed significantly to the development of frontends for multiple company websites, showcasing proficiency in code optimization and resolving software bugs.
- Conducted thorough research on Next.js, delivering insightful team presentations.
- Applied my skills to various projects, including collaborations with international clients.

Products

Front-end Developer - LECLE BLOCKCHAIN HOMEPAGE

Team size: 4.

Description: Developed the company's blockchain product showcase website.

Responsibility:

- Implemented source code setup using ESLint, Prettier, Husky, and lint-staged for consistent code quality.
- Utilized Swiper to create a 3D carousel for showcasing products.
- Employed the AOS library to add scroll-triggered effects for enhanced user experience.
- Coded and optimized various component interfaces, addressing errors as encountered.

Technologies: Next.js, TailwindCSS, ESLint, Prettier, Husky, lint-staged, Swiper, AOS.

Front-end Developer - LECLE ANNIVERSARY

Team size: 4.

Description: Developed the company's anniversary celebration website.

Responsibility:

- Researched and implemented celebratory effects using relevant libraries.
- Successfully posted data to the API.
- Coded the UI for the homepage, the 'send gifts' page, and the 'writing wishes' page.

Technologies: Next.js, styled-components, react-hook-form.

Leader, Front-end Developer - DEVESTORE

Team size: 4.

Description: NFTs exchanges website.

Responsibility:

- Assigned tasks and coordinated the efforts of team members.
- Implemented the 'Login with Hana wallet' feature.
- Coded the UI for the header and landing page.

Technologies: ReactJS, TailwindCSS, axios, icon-sdk-js, strapi, i18next.

Front-end Developer - LUCKY DRAW KOCHAM

Team size: 5.

Description: Lucky Draw website, with an admin page for customization.

Responsibility:

- Designed and implemented the entire dial interface, including the effect triggered by button presses.
- Collaborated with the backend team to integrate functionalities with the API.
- Worked closely with designers to optimize the interface and addressed bugs reported by the Project Manager and customers.

Technologies: ReactJS, react-canvas-confetti, jotai, react-lottie, react-slot-counter.

Education

University of Information Technology - VNUHCM

2023

- Bachelor of Information Technology
- GPA: 8.5

TOEIC Certificate

- Total score: 670

Foundations of User Experience (UX) Design Certification - Google
